## Meursault Santenots Premier Cru 2019

Vintage 2019

"- Spring frost - Staggered blooming phase - High temperatures during fruit set  
- Summer drought- The weather conditions had a major impact on the yields."

After an exceptionally mild winter, the vine quickly resumed its activity and saw its first buds burst as early as April 1st. Once again, spring frost was threatening the vine. Slowed down by the fresh temperatures of May, flowering started painfully in early June, lasted for about two weeks, and ended around June 20th, under an intense heat.

From this moment, the vine developed at a frantic pace but the high temperatures during the fruit set caused important symptoms of sagging.

In late July, a new heat wave disbursed the veraison : by mid-August, it lied between 50% and 80%, but showed great disparity from one plot to another, mainly because of the staggered blooming.

Despite the heat in September, the heterogeneity of the veraison made it hard for us to forecast the harvest date. We had to check the maturity several times, plot by plot, according to the age of the vine and the sector. With all these elements in our possession, we decided to start picking on September 9th 2019, which is eight to nine days earlier than initially planned when,flowering ended.

The 2019 vintage, very affected by weather hazards, is characterized by low yields. The grapes of Chardonnay and Pinot Noir, perfectly healthy, offered a great balance between sugars and acidity, and a complete ripeness.

### GRAPE VARIETY & PLOT SIZE

Grape variety: 100% Chardonnay on a 0.80 hectare plot

### TERROIR

This vineyard, located in the commune of Meursault, is unusual in that it is entitled to produce Meursault-Santenots Premier Cru white wine if planted with Chardonnay and Volnay-Santenots Premier Cru red wine if planted with Pinot Noir. Facing east, this vineyard has deep soil with alternating friable limestone aggregate associated with marl and silt.

Situated at the foot of the slope, this Meursault-Santenots has a perfect balance between soil and stone that encourages ripening.

### VINIFICATION & AGEING

Whole bunches of grapes were handpicked into small crates and the pressed in a pneumatic winepress. The juice was cold settled after pressing for 12-14 hours under temperature-controlled conditions. Alcoholic fermentation and ageing entirely in oak barrels.

100% malolactic fermentation

Duration of ageing: 21 months

### TASTING NOTES

Tasted in July 2021

COLOUR : Bright gold-green, silver reflections.

NOSE : A great deal of finesse and elegance on floral notes (vine flower), opening out on a hint of citrus and spicy-vanilla notes.

PALATE : Beautiful texture, power and richness perfectly balanced by a nice crispy and refreshing acidity. Mouth livened up by a cloud of spices.
